(54) Title: LAYING PIPE

(57) Abstract: A laying pipe (1) for a laying head for winding rounded rods comprises a first external pipe (5) with a first rectilinear section (2) and a second spiral section (3). A second internal pipe (10) in a single piece, with external diameter equal to the internal diameter of the first pipe (5) is inserted inside it in the first section (2). The laying pipe also has a sleeve (6) fixed at the rod entry end (4) which has the entry edges with fillet or a chamfer.
